Done

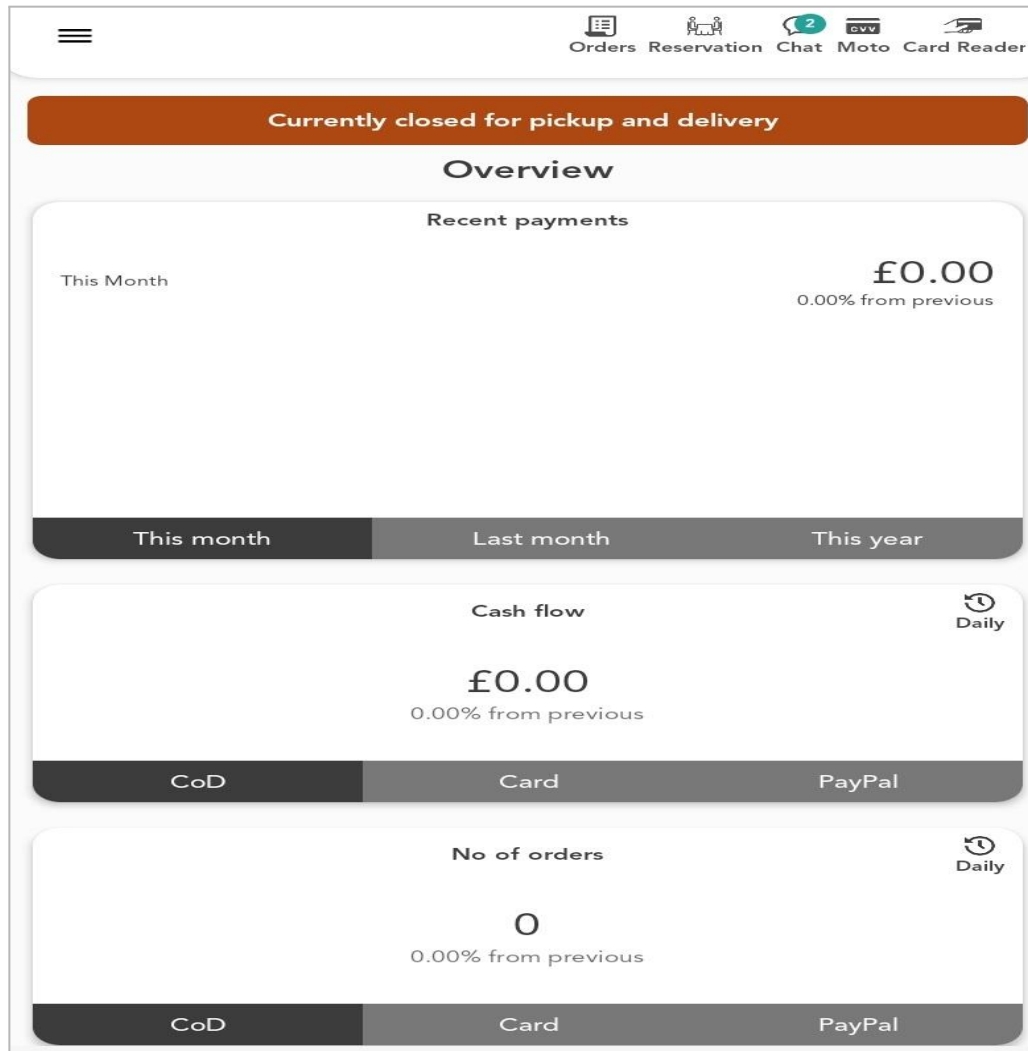

6. The next screen is **Select Printer**. Now you have to select the printer name which will be same as your device name.
7. Tap on **Done** button.

8. Now you will first see the information and guidance pages. Be sure to read over everything on the page. Once you're ready, tap the **Next** button to continue. If you want to read again the previous page, just tap on **Back** button.

9. After finishing the info pages, you will navigate to the home page, as you can see in the image. You will see here your business overview.

3. How to approve a Device ?

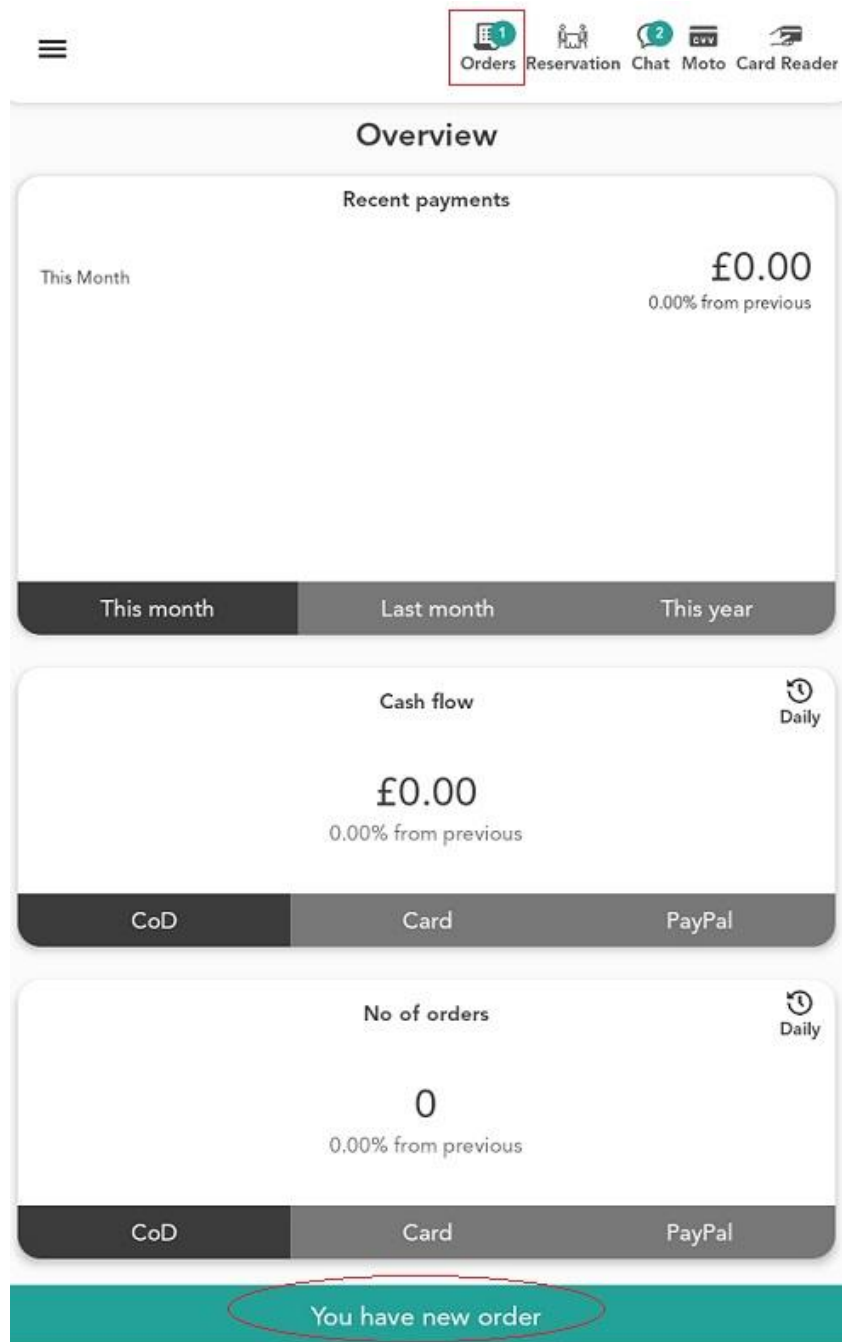

- When you will tap on any options, a device approves page will open. You have to approve your device from the service provider before going to use all the services except payments(moto & card reader).
- To **contact the service provider** message on **WhatsApp** with the **device name**.
- Your device name will be on that page, as you can see in the below image.

- After getting a confirmation message of device approval from service provider, tap on the **Refresh** button.
- Now you can access all the services.

4. Orders

- When you will receive a new online order on your system, your device will ring if the app is open or minimized, and a notification over the **Orders** button will appear. A new order notification bar button also appear at the bottom of the page, as you can see in the below image.
- Now tap on **Orders** button or **bottom notification bar** button to view the order. All Online Orders will appear on the orders page.

- Tap on order to see full order details.
- **How to Accept an order ?**
 - Delivery and Pickup both have the same steps to accept an order.

1. Open the order which you want to accept.
 2. Now tap on **Accept** button.
 3. Now you have to select a time at which that order will be pickup or deliver.
You can also set a particular time by tap on **Custom** button.
 - Tap on **Custom** button > Set time > Select AM or GM > tap on **Ok** button.
 4. Now tap on **Confirm** button.
 5. After clicking on Confirm button, a print popup will show up. If you want a kitchen copy then tap on **Yes** button, else tap on **No** Button. Order will be accepted.
- **For a Delivery order: Change order status as **Delivered** ?**
1. Tap on **Mark as delivered** button to change the order status. Then tap on **Confirm** button. Order status will show up as **Delivered**.
- **For a Pickup order: Change order status as **Picked up** ?**
1. **Send a message to customer to collect the order:**
 - ➔ When the order is ready, just tap on **Ready to collect** button, a message will be sent to the customer to pick up the order.
 2. **Change status as picked up:**
 - ➔ Tap on **Mark as picked up** button to change the order status. Then tap on **Confirm** button. Order status will be changed into **Picked up**.
- **How to **Reject** an order ?**
1. If you want to reject an order, open that order and tap the **Reject** button.
 2. Select a reason for rejecting the order, or you can type a specific reason by tap the **Other** button.
 3. Now tap the **Confirm** button.
- **If order is **delayed****
- Delayed orders will show in **Brown** color and Delayed name will show on that order.
 - If an order is not ready by the time promised, you can change the time limit.
 1. tap on **Delay** button.
 2. Select a new time or enter a custom time by tap on **Custom** button.
 3. Tap on **Confirm** button.

➤ Order History

- In order history, you can see all the completed order (delivered, picked up, rejected order) by tap on **Order History**.
