Total electricity costs		£359.33
Summary		
Total electricity costs		£359.33
VAT 5.00% on £359.33		£17.97
Total costs for this period		£377.30
Your starting balance		£13,212.78
Total payments for this period		£0.00
Your new account balance is		£13,590.08

HM Government is no longer providing an Energy Price Guarantee (EPG) discount to your gas and/or electricity prices. This change took effect from 1st July 2023. Please note, you may still see a saving applied to your account if your bill covers a period before the EPG discount no longer applied.

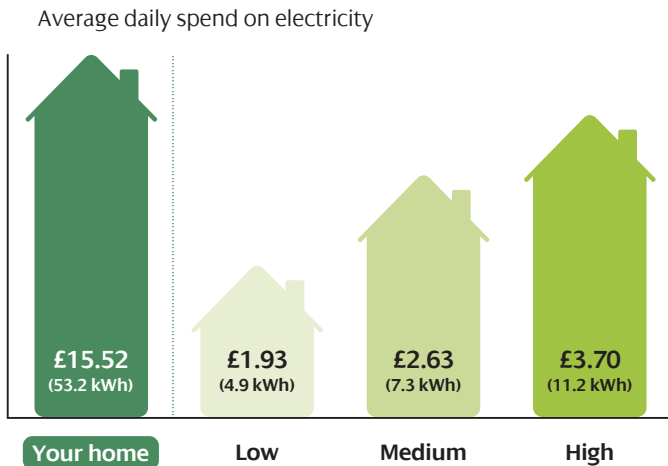

Meter type: Standard
Your electricity supply number:

S	01	801	001
	14	7000	1250 881

Staying on top of your energy costs

How much energy do you use in a day?

Your average daily spend, based on your energy use and tariff, is shown below. To help you understand what type of energy user you are, we've also shown the equivalent daily spend for Ofgem's typical low, medium and high energy users. Figures include VAT at 5%.

Some top tips to help reduce your energy costs

Turn off standby mode

Most electrical appliances can be turned off at the plug when not in use without causing any issues. Turn off standby mode on appliances like your TV to save around **£55** a year. Always check your appliance's instruction manual if you're unsure.

Draught-proof your home

If you live in an older home, you'll likely lose some heat in various places around your home. Professional draught-proofing of windows, doors and blocking cracks in floors and skirting boards can cost around £250, but it can save around **£95** a year on energy bills. DIY draught proofing can be much cheaper.

Spend less time in the shower

The energy needed to heat the water for a shower can add up. Shortening a shower to 4 minutes could save the average household **£70** per year.

IMPORTANT

Speak. Seek. Save.

Times are challenging and the cost-of-living crisis is impacting many households. We're supporting Citizens Advice with their Speak. Seek. Save campaign to provide more help to our customers.

Speak: If you're struggling to pay your energy bills, please speak to us as soon as possible. We can work with you to set up a payment plan or discuss the help and support we have available to you.

Seek: You may be eligible for our Hardship Fund if you're on a lower income and need help. The fund can apply credit to your account that you don't need to pay back, which can help clear or reduce any debt on your account. Find out more at scottishpower.co.uk/hardship-fund. We can also direct you to organisations where you can seek advice. For example, debt charities, Citizens Advice, StepChange or LEAP (Local Energy Advice Partnership).

Save: We can help you save energy at home with our simple tips. For example, turning your heating down by one degree could save you £100 per year*. Find out more at scottishpower.co.uk/energy-efficiency or visit www.gov.uk/saveenergy for further advice from the Government. And, if your home has a poor EPC energy efficiency rating and you receive certain benefits, we could help to lower your energy bills with a free air source heat pump installation. Discover more at scottishpower.co.uk/air-source-heat-pumps

Extra help managing your energy account

If you need a little more support – for example if you have a disability, chronic illness, are of pensionable age, are blind or partially sighted, or have experienced a change to your personal circumstances, you may be eligible for our free Priority Services Register (PSR). It offers a range of services - for example, we can send communications in alternative formats, provide help with your meter readings, and carry out free gas safety checks. To find out more, visit scottishpower.co.uk/psr
